

★ BUSINESS PLAN PRESENTATION

# SABENFIX

Connecting You to Trusted Technicians

Faculty of Engineering and Technology (FET) • University of Buea • June 2026

# | The Problem in Buea

## Unverified Artisans

Roadside hires and random referrals lead to massive safety risks and zero security checks.

## Poor Quality

Lack of certification leads to repeat failures, damaged appliances, and wasted savings.

## Fraud & Overpricing

No transparent pricing directory. Customers get easily exploited in emergency lockouts or leaks.

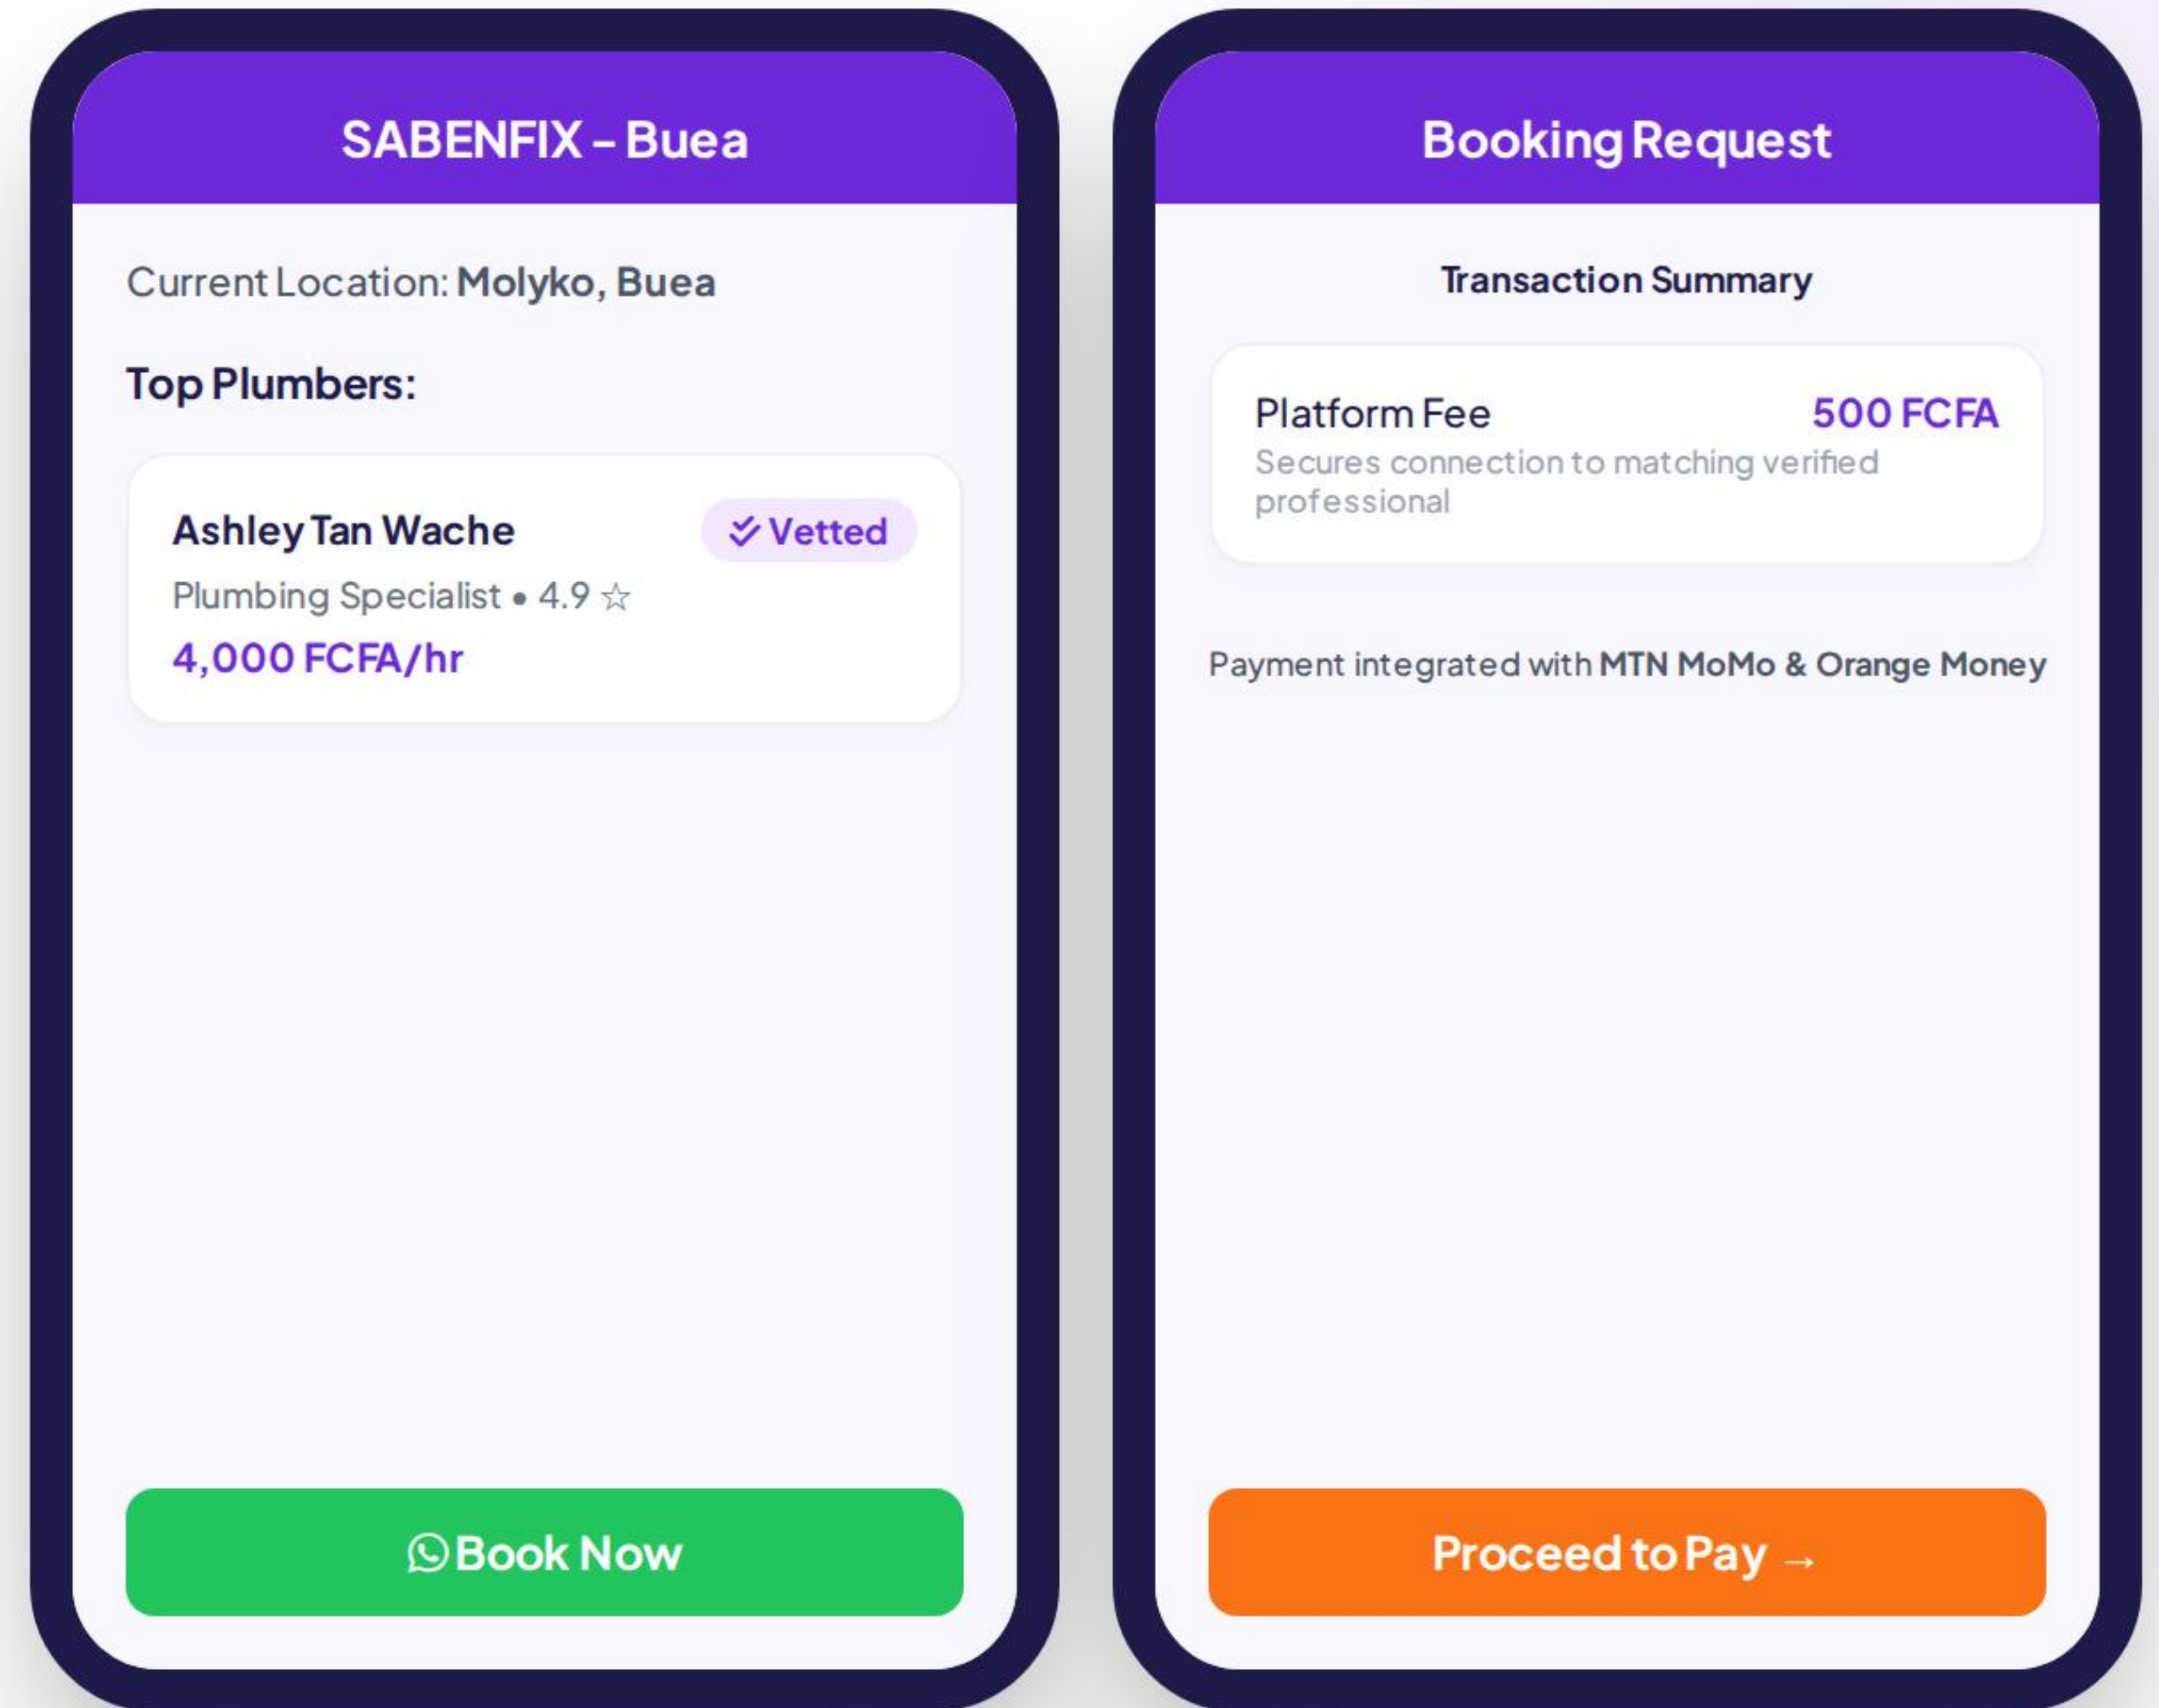

**! Emergency repair situations currently force Molyko residents to choose convenience over physical safety.**

# | The SABENFIX Solution

## Cameroon's Trusted Technical Marketplace

- ✓ **Admin-Vetted Profiles:** Hard National ID and trade certificate checks before display.
- ✓ **Absolute Transparency:** Customer reviews and portfolio pictures live.
- ✓ **Zero Complex Barriers:** Instant connection using built-in WhatsApp links.

# | How It Works (A Frictionless Loop)

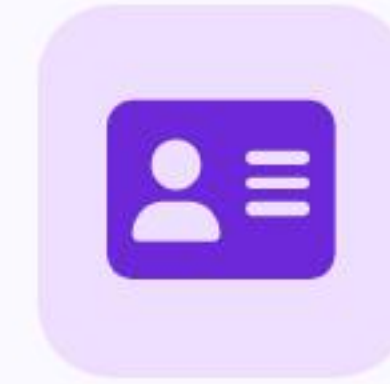

# | The Revenue Architecture

## Customer Booking Fee

**500 FCFA Per Book**

Micro-payment collected seamlessly on connection requests through MoMo & Orange Money APIs.

## Technician Subscriptions

**5,000 FCFA / Month**

Listed professionals subscribe monthly to secure persistent matching visibility across Buea.

 **Future Monetization: Featured Profile Positioning • Premium Advertising Slots • Hardware Store Partners • Commission Plans**

# | Engineered to Build Trust

## **Vetted Identification Logs**

No ghost accounts. Admins verify national identity cards & professional vocational records.

## **WhatsApp Redirection Engine**

No complicated in-app chats. Leads customers to WhatsApp to directly agree on repair requirements.

## **Dynamic Trust Engine**

Ratings and historical service pictures display public proof of past performance.

# | Market Potential & Impact

**42,000**

**SERVICEABLE ADDRESSABLE  
MARKET**

## Buea Market Opportunity

SABENFIX targets the highly digital, early-adopter population of Molyko & the Greater Buea region.

---

### **70,000 TAM**

Total households and local businesses requiring maintenance across the Buea region.

### **6,300 SOM**

Realistic Year 3 target based on off-campus student clusters and local referring partners.

# | Future Growth Roadmap

## Geographic Expansion Pipeline

-  **Phase 1 (Year 1):** Focus completely on Molyko & Buea. Build community trust loops.
-  **Phase 2 (Year 2):** Expand operationally to Limbe & Kumba.
-  **Phase 3 (Year 3):** Scale to Douala, Yaoundé & Bamenda.

### Next-Gen Features

**GPS Technician Tracking:** Watch professionals travel in real-time.

**Digital Escrow:** Hold client payments safely until job completion validates satisfaction.

**AI Recommendations:** Machine learning matches the best local specialist with precision.

💡 OUR VISION FOR CAMEROON

**”SABENFIX is transforming how people find trusted technicians in Cameroon.”**

We are structuring the local informal sector, promoting community safety, and empowering qualified, honest technicians.
